## **Petition to Play Up One Age Group**

Fall 2011 – Spring 2012

**(Petition must be received by Friday, April 15, 2011)**

It is the expectation that players on Augusta FC travel teams will play for their appropriate age/grade group. If the player is of exceptional talent and motivation, they may petition to play up one age group. This request is for permission to try out for the team and does not guarantee selection to that team.

Players must file new petitions each year. All petitioning players will be evaluated by the Augusta FC Director of Coaching (DOC) during their spring play. The DOC will review the evaluations and contact you with his decision prior to tryouts.

The DOC will consider many individual player development factors when evaluating the petitioning player. The player must also display the ability to play at a level that would place them in the upper third of the team that they are petitioning to play up to. If you have any questions about this process, or whether it is appropriate for your child, please email us at the address below.
