Rec League Player Evaluation Form

Please evaluate each player relative to all other players in the same age group on a scale from 1 to 5. An average player should be rated a 3. A player with little skill or athletic ability should be rated a 1. Only the top few players in an age group should be rated a 5. A player may receive a non-integer rating (i.e. 2.5 or 4.3). Ratings should be based on all technical and tactical characteristics of a player and not just on the number of goals scored.

Your team average should correspond to your team's win/loss record according to the table below. Use the following formula to determine your team record where W=win, L=loss, T=tie and N=number of games played:

Team Record = (W + T/2)/N

If your team record is between	Then the average of your player's ratings should be between
0.00 - 0.33	2.0 - 2.7
0.33 - 0.67	2.7 - 3.3
0.67 - 1.00	3.3 - 4.0
